The man had a foolish expression on his face and he kept looking stupidly as if he was trying hard to understand what was going on. The man was accused of breaking a house and stealing a cheap watch. The witness who called, did not give a very clear account of what had happened. He claimed to have seen a man outside the house one night ,but on being questioned further, he confessed that he was not sure whether this was the man. The judge considered the matter for a short time and then declared as there was no real proof, the man could not be found guilty of any crime. He said that the case was dismissed and then rose to go .Meanwhile ,the accused looked very puzzled. It was clear that he had not understood a thing.
